*In order to calculate the school level progress measures in reading, writing and maths, pupils' results (at KS2) are compared to the achievements of other pupils across the country who had a similar starting point (prior attainment). Most schools will have progress scores between -5 and +5. If a school has a progress score of 0 this means that on average their pupils achieved similar results at the end of KS2 (end of year 6) to pupils in other schools with similar results at the end of KS1 (end of year 2). If a school has a positive progress score this means that on average their pupils made more progress than pupils in other schools with similar results at the end of KS1.
